

Novel scheme of Work from Home Internship

In view of the present conditions of Work from home requirements, Dnyandeep Infotech is starting Work from home Free Internship to fresh graduates and students having expertise and experience in any IT or Env. Engg. branch.

Interested students should send their resume with assurance of working 40 hours per week. They shall be included as interns in ongoing projects and work assignments. Candidates will have to agree the terms and conditions of the company. Experience certificate shall be issued after completion of minimum three months.

If the interns continue to work and contribute positively in the projects Rs. 3000/month remuneration shall be paid after completion of three months. The paid internship seats are limited and only selected candidates shall receive this benefit.
